

Gateway Greening  
The Power of Growing Food

# Gateway Greening 2020 Annual Review

For Gateway Greening in 2020, we adjusted to meet the needs of our communities. From virtual workshops to deliveries to curbside pickup, Gateway Greening met the needs, even if it was through a computer or from a safe distance. While all of us had to adjust to COVID and the situations around us, we were encouraged to see more people in 2020 connecting with nature and growing their own food. We plan to build upon these gains in 2021.

## FOOD GROWTH

17

NEW OR EXPANDED ORCHARDS amounting to 192 fruit & nut producing trees, shrubs, & vines

7

NEW GARDENS

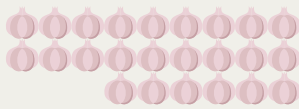

2.58 TONS

of locally grown fresh produce
